Everybody's Talking...

"Insero & Co. primarily assists Touchstone Technology with our financial and tax planning needs. During a recent staffing change, we discovered Insero's in-house professional recruitment service which helped us locate a very good pool of qualified candidates. We ultimately hired one of them. This experience lead us to return to Insero to recruit for three more management positions of which all three were filled using their services. I am very pleased with the professionalism, level of service, and results we received when utilizing Insero for our professional recruitment."

David J. Meisenzahl, Vice President & CFO, Touchstone Technology, Inc.

"Insero & Co. was instrumental in quickly locating us exceptional talent. They went out of their way to understand our business environment, as well as our requirements and focused their search efforts to provide us with only qualified candidates. Insero is very knowledgeable of the local marketplace and saved us a great deal of time because of their network of local talent. They also connected well with candidates and managed expectations on both sides resulting in a satisfied client and a new hire that transitioned well into our company."

Richard C. Brienzi, CPA, Executive Vice President & CFO, Ovation Payroll

"Insero & Co. has been an excellent resource for all of our tax and financial planning needs, for many years. We recently developed a need for a new hire and after several unsuccessful attempts to find the right person, I reached out to my accountant at Insero. She informed me that Insero offered a Recruiting Service, and introduced me to David Mandrycky. David promptly met with me to determine our exact needs. He provided a superb group of qualified candidates, where any one of them would be a very good hire. His knowledge of our unique needs and ability to locate qualified pre-screened candidates led to a successful placement of "the perfect fit". I am thrilled with the results and only wish that I had learned of Insero's Recruiting Services earlier in my search."
